BUILD & BECOME

THE 1 YEAR ARCHITECT LICENSURE

PROGRAM

The "Build & Become: The One-Year Architect Licensure Program," sponsored by Long Beach City College, is a transformative initiative designed to expedite the journey of aspiring architects toward professional licensure. Set to begin on August 26th, this online and asynchronous program offers a planned schedule that enables participants to complete all Architect Registration Examination (ARE) exams within a single year. Funded by a StrongWorkforce grant, the program covers all exam fees and provides a year-long subscription to Black Spectacles, ensuring participants have access to premier study materials. Approved applicants will receive a permission number to enroll in a non-credit, tuition-free course at LBCC, facilitating a structured and supportive environment that maximizes their potential for success in the architecture field.
